

Question 4: What was the most surprising thing that happened to you during the workshop? Why?

Statement	Number
Teepee – Village	2
That a lot of people left in the beginning of the Open-Space-session the workshop and it was OK	4
Getting to know that most gardens are dealing with similar problems	1
Diversity (forms) of the gardening projects in Berlin	1
Feeling of beeing completely right/good	1
Unability to focus on anything else as the trip home (long way by bus+train)	1
The great group-dynamic / cooperation within the group / trust in each other / good exchange	3
No surprisings / no statements	2

Question 5: What were the most important learning points you will take home from this workshop?

Statement	Number
Recognition, that there are a lot of approaches for facing the same problem	1
Talk less, go practical!	1
Recognition, that there are general problems in the gardens, which are general, not for national or local reasons	1
About the garden, wormiries, compost	1
I get the motivation to become active in the community garden in my city	1
When people bring a lot of motivation and passion, then it is possible to move something forward!	1
That I can not control everything. That what ever happens is okey! (Open-Space)	1
All interesting discussions, exchange, experiences made and impressions gotten will impact positively my future way of life	1
The similarities and differences between Berlin and my own city	1
Experiences from other gardens on how to reach out to the local community	1
Open-Space method	1
The low of two feets	1
Freedom of the open-space method	1
Similarities concerning the challenges (or aims/motivation) which gardening projects are facing in different european cities	1
No statement	1

Question 6: What was the session you liked the most? And why? (without 'why')

Statement	Number
The visitings of the gardens	2
The visiting of the 'SpreeAcker' area	1
The first evening in the GardenStudio	2
The brainstorming sessions and exchanges about the „sustainability“, „integration“, „what the community garden means to me?“	1
Open-Space session on Saturday	4
All in-door-sessions	1
'word cafe' session in order to update and develop our project	1
No statement	3

Question 7: Were the methods used appropriate to your learning? Please explain why? (without 'why')

YES	I THINK SO	SCEPTICAL	DIFFICULT	No statement
9	1	1	1	3

Question 8: Do you think you know more about 'community gardens as learning environments' and 'learning for sustainable development' now? How would you define 'sustainable development'?

YES	NO	MAYBE	To big question	No statement
11	1	1	1	1

„Sustainable development“:

- „The actors/gardeners/users are involved from the beginning. It's a development, which is adapted to the circumstances and influences them positiv.“
- „Sustainable desicion making means to me, to keep in touch with the participants and to create with them long-term and permanent relations in order to develop together thinks and to work together.“
- „Sustainable development means a lot of things. Ecological sustainability as well as social inclusion.“
- „Sustainable development = people and places doing, organising things that are not effecting the environment in a negativ way and also are 'good' for community, people are involved.“
- „The garden is in itself a part of sustainable development.“
- „3 dimensions (social, ecological, economical) should be developed in a way, that next generation still can live in a human way.“
- „Development that does not harm or interfere already existing social structures in a bad way or harm the ecological system.“
- „Sustainable development for me: the unavoidable direction in which the world is learning. Things have to make changes. Or we will destruct ourselves.“

Question 9: Do you think this workshop will be useful for you and you will apply what you've learned on this workshop back home in your reality? Why?

YES	YES and NO	No statement
11	1	3

- „I led some discussions with Berlins' people, who I would never speak in other context to.“
- „I take a lot with me. More knowledge, an open ey for community gardens. I have met new intresting people and I have seen Berlin from a completly different perspective.“
- „I think especially the open-space method will be useful concerning finding ideas for a new project.“
- „Open-space - I will read and learn more about and try to use those principles wherever I can! Because I find them so simple & sueful & efficient & true!“
- „Yes, but not in meaning of 'copy' but in meaning of 'forming'.“

Question 10: How do you evaluate your own participation during this workshop?

Statements
„It was difficult for me to express myself in the group.“
„I think I was active and contributed to the development of this project and the decision making process.“
„I brought in my own experiences, questions and was opened to listen to others.“
„I feel I have been very active and felt free to do what I feel like = try what I feel.“
„I've been functional, I've been instrumented in making sure that we handled our different langueges in a good way. That also kept my good mood and helped to keep a light on in the whole group.“
„I took an active part becouse I felt responsible for the EU project, the partnership between nations.“
„Languege difficulties.“
„In a scale 1-5; maybe 4.“
„I have participated as much as I have had the energy to. I hope I have offended no one. I find interesting the cultural differences between the countries participating in the project.“
„I was more pasive in the group. The reason for that is, that I'm a 'new-commer' in the field, I do not have any background knowledge concerning the community gardens.“
„I was a bit tired in the first day. But Saturday and Sunday I participated more.“
„I wasn't so active. But I listened with pleasure to.“
„I was bringing some ideas, but ...?.?..? to be disturbing others with my very verbose way of discussing things. But this doesn't mean, I have blamed anyone. It's just something to be obvious.“

Question 11: Having a look at the program, used methods and activities, would you have done something differently?

Statement	Number
More practical knowledge concerning the gardening. More practical sessions (working in the garden)	5
More visitings of other gardens	1
More concreteness about the project, how to keep the project going. Maybe divide it into sessions about: 1. the project structure, 2. concrete issues like wormery, 3. how to engage people in the community	1
A break was needed Saturday; more breaks	4
More attention to the translation	1
To come with an airplain, not by bus and train – it is to long	2
No statement	1

Question 12: Do you have any feedback to the team of workshop?

Statement	Number
To make something, what will remain (to plant a tree for example)	1
Well done. Impressive organisation. Good job!	4
1001 times THANK YOU VERY WELL dear Lina's	1
You are amazing. Keep done what you do!	1
Very good planing! Great people, nice gardens, good food!	1
Make plans for rest in the schedule	1
More information about the method earlier	1
I did not catch the point of the project: Is it about gardens? Culture? Science?	1
No statement	4
